ABOUT ME

I am a Year 13 student at Albany Senior High School looking for part-time retail work. I'm calm under pressure, quick to pick things up, and I enjoy working with people, even tho I'm still working on my confidence when dealing with new customers. Outside of school, I'm someone who creates things, whether it's people, code, or hardware, and I bring that same dependability to everything I do. I am available to work weekends and after school.

EDUCATION

Currently Year 13

Albany Senior High School | 2024-2026

Achieved NCEA Level 1 with Excellence endorsement and NCEA Level 2 with Merit endorsement. Earned Merit course endorsements in Level 12 Mathematics, Level 12 Physics, and Level 13 Physics. Currently working towards NCEA Level 3.

SKILLS

I'm punctual, with strong emphasis on teamwork and communication skills. I have experience in 3D printing and CAD design using Fusion 360, and with electronics and hardware including Arduino, soldering, and circuits. I work well under pressure, with customer interaction experience and some leadership skills. I'm fluent in Tamil, with skills in web development, coding, and technical troubleshooting. I hold a learner driver licence and am working towards a Restricted Licence.

AWARDS & PROJECTS

In 2024, I helped design and build our eVelocity entry, and we placed 3rd Overall and received the Gold Choice Award. We entered again in 2025 with a bike project. I designed and built ASHS SmashTrack, a badminton session coordinator web app, as a personal project, along with a Digital e-ink Scoreboard. I've been a Badminton Referee for local club competitions since 2025, and I volunteered at ASHS Open Days from 2024 to 2026. I led Badminton Legacy in 2026, where we organise games and competitions together. I also competed for the School Badminton Team in the North Harbour Competition from 2024 to 2026.
